

Swiss precision for excellent audio quality

VOICE TECHNOLOGIES

VT600C Earphone with coiled cable

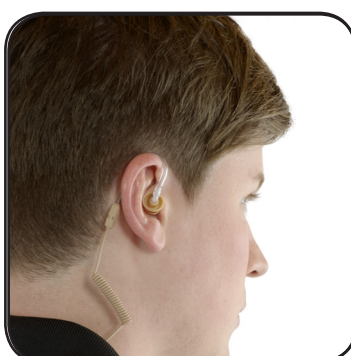

Discrete listening was never so comfortable.

The VT600C of Voice Technologies is designed for inconspicuous listening requirements of newscasters, security professionals, stage performers and other talent requiring discreet cueing.

Excellent sound and ease of use are the primary user benefits; there is no need for a custom ear mold or snap fit parts, one size effectively fits all. The VT600C is equipped with a short bend acoustic loop and will interface with any wireless or hardwired receiver for monitoring.

The Voice Technologies VT600C comes in the stable, waterproof VTO Box with a clip and an additional earpiece. As an alternative to the standard earpiece a Flexible Ear Insert for left or right ear (Sizes: small/medium/large) is also available.

Application area: Newscaster - Security - Stage
