

Swiss precision for excellent audio quality

# VOICE TECHNOLOGIES

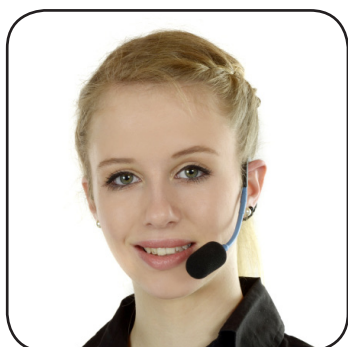

## VT720W Waterproof Sports Headworn

**Hard workout? Not for your microphone.**

The Voice Technologies VT720W is a noise-cancelling, waterproof headset microphone for sports and aerobics instructors as well as television field for wireless transmission and amplification voice.

The Bi-directional microphone head is waterproof and the condenser microphone capsule is a highly efficient noise canceller, which prevents feedback from loudspeakers or interference from crowd noise etc. The headband behind the neck is adjustable.

**Application area:** Sports and aerobics instructors

## VT720W Waterproof Sports Headworn

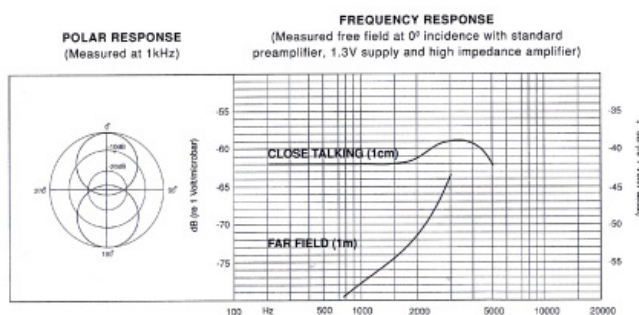

### Specifications:

Generating Element:	Back Electret Microphone
Polar Pattern:	Bi-Directional
Frequency Range:	300Hz-5kHz (1cm close talking)
Sensitivity (3-wire):	-42dB±3dB 1V/microbar (8mV/Pa)
Noise Level:	26dB "A" weighted
Max. Input SPL:	120dB SPL
Impedance:	3 kOhm
Bias/+VDC:	1.3-20V
Current Drain:	50 uA
Colors:	black
Cable:	Length 1.4m Ø 1.5mm
Weight:	50g

Wiring Configuration (3-wire)

Red	„+“ VDC
Silver	Ground
White	NF

### Frequency range:

### Standard Accessories

WS720
